

UNIVERSEH Mentoring Programme 2026-2027

Launch your career in Space and apply to the
UNIVERSEH Mentoring Programme!

Objectives:

The programme is designed to support students interested in the space sector by connecting them with experienced mentors from academia and industry.

The UNIVERSEH Mentoring Programme helps students gain insights and guidance for their careers in the space field, while also encouraging innovation and entrepreneurship by providing a space to develop their ideas and receive advice on their professional paths.

Open to students from all disciplines, the programme is intended for those who wish to explore or develop a career in the space sector, regardless of their academic background. Through the UNIVERSEH Alliance, participants can also connect with mentors and peers across Europe, helping them broaden their perspectives and gain a better understanding and insights into the European space ecosystem.

About the program:

Participations:

UNIVERSEH Mentoring program will be open to students from UNIVERSEH Partner Universities:

- Poland: AGH University of Technology
- Luxembourg: Université du Luxembourg
- Sweden: Luleå University of Technology
- Germany: Heinrich-Heine-Universität Düsseldorf
- Italia: Università degli Studi di Roma Tor Vergata
- Belgium: Université de Namur
- France:
 - Université Toulouse II Jean Jaurès (UT2)
 - Université Toulouse III Paul Sabatier (UT3)
 - Institut National Polytechnique de Toulouse (Toulouse INP)
 - Institut National Supérieur de l'Aéronautique et de l'Espace (ISAE-SUPAERO)
 - Toulouse Business School (TBS Education)

The programme will be **open and free of charge to all students from these partner institutions** who wish to develop their career, studies/research, or/and entrepreneurial projects in the space sector, whatever their field of study.

It is aimed at students from the first year of a bachelor's degree, as well as master's and doctoral students.

Students can apply to the programme by completing [the Mentoring Programme Application Form](#).

Please note that the programme offers a limited number of places.

Students who participate in and complete the entire mentoring programme will receive a certificate recognizing their commitment and participation as mentees. This certificate acknowledges their involvement in pursuing and advancing their academic and professional aspirations in the space sector.

Duration and organization:

Organization:

The programme will be conducted in 3 different phases: With around 3 meetings per phases

Duration:

The Programme will run from October 2026 until the end of October 2027, with the provision that it may be extended for another half year.

Mentoring meetings organization:

Frequency and duration

Each Mentor–Mentee pair is required to complete **at least nine** (and maximum twelve) **mentoring meetings of around 45 minutes** during the Programme. Meeting duration can be counted as double by doing a 1h30 meeting.

These mentoring meetings can be conducted in-person, online, or in a hybrid format and may be held in a common language.

Mentors:

Interdisciplinarity is at the heart of the UNIVERSEH Mentoring Programme. Mentors are coming from Alliance partner countries to support and guide students in their academic, entrepreneurial, or career projects and aspirations. They come from a wide range of backgrounds and bring experience across different disciplines of the space sector, enabling students from diverse fields to take part in the programme and benefit from mentoring as tailored as possible to their individual interests, aspirations, and career paths.

The mentor–mentee **matching process** is **based on the alignment between mentors' competences and experience and mentees' aspirations, development needs, and academic, entrepreneurial, or professional projects**, ensuring meaningful and tailored mentoring relationships.

Mentors are bound by a duty of confidentiality. They are committed to respecting the confidentiality of your projects, discussions, and personal information, and to protecting your privacy throughout the mentoring programme.
