INSPIRING EDUCATION INSPIRING LIFE

Procedure for WIFI access for external guests from a phone

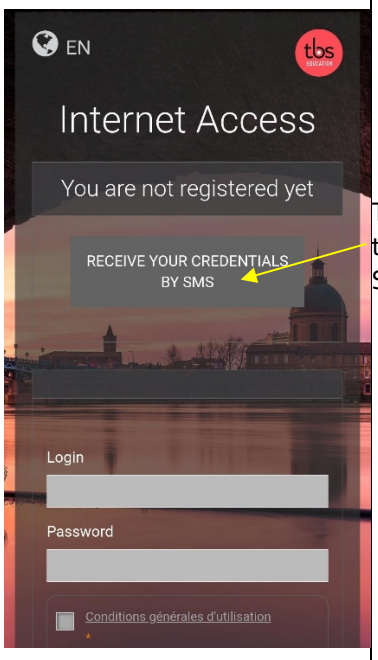

To connect to the Wifi at TBS Education, it is sufficient to use a mobile phone to retrieve a WiFi code via SMS.

Complete the following steps:

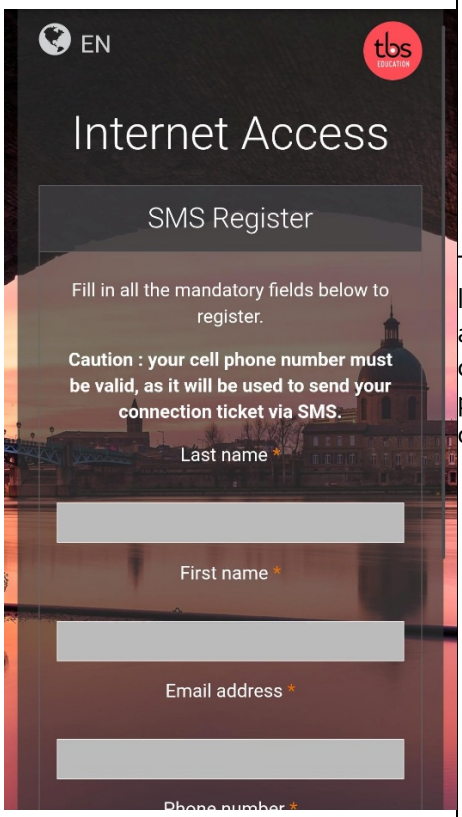

- The external user connects on their personal computer to **GUEST-WIFI_TBS**
- Then, they open an Internet page with their browser, and automatically access the page below:

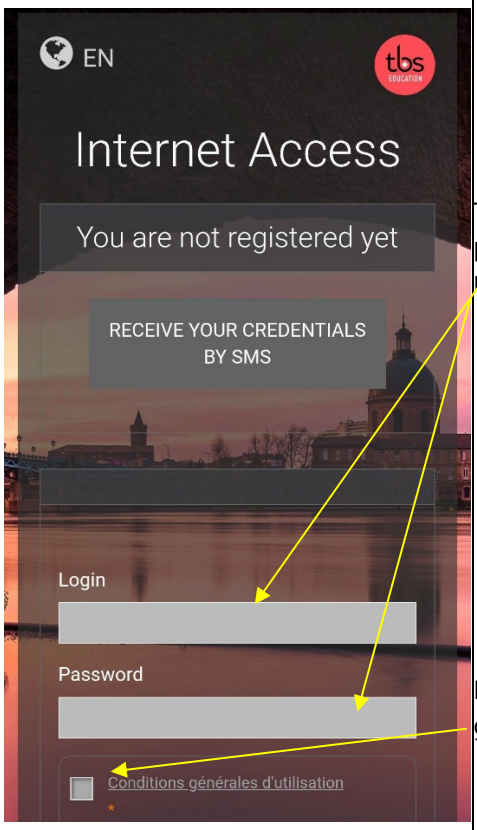

The user can switch the language to English here.

Then the user has to request their internet access via SMS.

They are asked to give their last name, name, email address, indicate their country code then their phone number. Then they can click on register.

Then, they come back to this page and have to enter the received credentials here.

Finally, they accept the general terms of use.

They can click on connect.

Guests might experience difficulties connecting to the Wi-Fi if they are using a VPN or any sort of anti-virus device.
